

Pre-Trip Communications

The Sign-up Form and the Traveler Details Form are both available as a PDF file you can complete and submit electronically, and also as a document you can complete by hand and fax or mail to us. If you mail them to us, we highly recommend making a copy first.

If you get the full Traveler Details document, it includes four Addendums that you complete only if you have one of these issues: Insulin-Controlled Diabetes, Seizures, Mobility Limitations, and Food Intolerance/Allergy.

Or you can get the basic document and download one or more Addendums individually. Each Addendum is also available in both formats: electronic, or hand-completed.

There are also two optional Addendums that are available on upon request if they apply to you: Constipation and Food/Liquid Texture Modification.

We highly recommend sending in your completed Traveler Details before the document deadline because once we receive it, we may have follow-up questions, and we must receive your responses by the deadline so we have the information we need to safely care for you.

Your completed Pre-Trip form ensures that we have up-to-date information about the care you need.
